

EUGENICS THE CHIEF TOPIC OF INTEREST

Closing Session of the First
National Conference on
Race Betterment.

BABIES GIVEN PRIZES

Fathers of Winners Total Ab-
stainers; Views of Univer-
sity Settlement Worker.

BATTLE CREEK, Mich., Jan. 12.—“The Causes of the Declining Birth Rate” and “Segregation” were two of the subjects taken up today at the closing session of the First National Conference on Race Betterment. Eugenic selection of healthy mothers and provision for the cost of bearing and rearing children should be made if the race is to survive, according to Dr. J. McKee Cattell of Columbia university.

The restriction of the propagation of feeble-minded is necessary if the production of defective delinquents is to be avoided, declared Hastings H. Hart of New York.

The committee on awards in the “better babies contest” this afternoon awarded medals for the best babies—boy and girl—between the ages of six months and three years to Alvin Kingsley, three-year-old son of Mr. and Mrs. Albert Kingsley, and Virginia June May, daughter of Mr. and Mrs. S. R. May.

Perfect Physiques.

It was said that the winners of the awards were practically perfect in physique and mentality. The parents of both children live in Battle Creek. The father of the boy is a taxicab driver and the father of the girl is engaged in the optical business. Both fathers are abstainers. It was announced, from tobacco and alcohol.

New methods in prize baby contests were urged by Rollins Gilman, head

DEBATE ON ALASKA BILL IN THE SENATE

Chamberlain of Oregon Re-
cites Statistics While Sup-
porting the Measure.

WASHINGTON, Jan. 12.—Debate on the Alaskan government railroad bill began in the senate today, with the prospect of occupying many sessions before final action. Senator Chamberlain of Oregon, in charge of the measure, spoke at length, reading from the reports of government experts sent into the territory to study its possibilities, and characterizing the purchase of Alaska from Russia as the greatest business arrangement in which the United States ever had engaged.

Reciting statistics on Alaska's minerals and fisheries to show the vast commerce lying isolated and virtually impossible of development under present conditions, Senator Chamberlain said the present railroads there did little or nothing to aid the territory as a whole, because they were constructed to serve the ends of private interests. The Alaska of today, he declared, was a country for rich men only.

The senator read reports on climatic conditions of the territory and its agricultural possibilities. When he touched on the coal land leasing feature of the bill, Senator Borah of Idaho took exception to a statement that leasing would stimulate competition. Senators Cummins and Reed took part in the discussion, which indicated that this portion of the bill would meet with considerable opposition.

Senator Cummins said that if the government could not furnish coal in any other way at a better price than the consumer is now compelled to pay, it should mine the Alaska coal as well as coal in the United States.

worker of the University Settlement society of New York, in addressing the conference today.

“The healthiest or prize-winning babies,” he said, “are of less immediate importance to the society of tomorrow than the babies who are unable, through lack of health, to win prizes. The unhealthiest are the ones in which we should take most interest.”

Other Things Considered.

“If the contest is to consist of finding a physically fit baby, to single out one and to give its parents the good distinction of bearing such a prodigy, and incidentally arousing bad blood in the parents of the baby who came so near to winning, but did not, then I say let us have very few contests. As a social worker I am more interested in the possibility of imperfect babies growing up into fairly fit physical manhood and womanhood than in searching out a physically perfect baby who may not so grow up, but above all, I am interested in having a perfect or imperfect baby grow up into moral and spiritual fitness for parenthood and citizenship.”

“To make a baby health contest of more than passing importance it should be followed by two examinations, one into the environment of each baby and one into the possible heritage of the baby. The speaker took up the international scope of race betterment, also.

Scientific Eugenics.

Scientific phases of eugenics furnished a large part of the discussion during the day.

Dr. C. B. Davenport, director of the Carnegie station of experimental evolution at Cold Springs Harbor, N. Y., urged that a broader official study be given the subject of producing better men and women, instead of so much study for the protection and care of defective types.

Dr. Maynard N. Metcalf of Oberlin college expressed the opinion that only certain improvement of the race would come through proper breeding and culture.

Professor Walter Wilcox of Cornell university spoke on the subject of “Differential Fecundity.” A paper on “The Importance of Hygiene for Eugenics” by Professor Irving Fisher of Yale was read at the meeting, the author being unable to attend the conference.

ALLEGED POISONER
PLEADS NOT GUILTY

Carl Hopf, Frankfurt Druggist, Fertile
in Explanation When Brought
to Trial.

FRANKFURT-ON-MAIN, Jan. 12.—The plea of “not guilty” was entered today by Carl Hopf, druggist and fencing master, when brought up for trial charged with killing his two children, his father and his first wife by administering poison, and with attempting to commit similar crimes on his second and third wives and another person.

The accused admitted today that he had given a poisonous drug to his three successive wives, ostensibly as a means of improving their looks. To his third wife he had also given fever germs, but she escaped death owing to the vigilance of her doctor.

The three women had been insured by the prisoner for \$5000, \$7500 and \$3000 respectively, and each of them fell perilously ill within a year after her marriage.

Hopf gave various explanations for the presence of the poison in the bodies of his victims. His wife, he said, had taken it as an ingredient in a beauty compound, and he had injected the drug into the bodies of his children in order to embalm them.

Among the germs found in the possession of the prisoner were those of typhoid, cholera, puerperal fever and tuberculosis.

UTAH UNIVERSITY IS
NOT IN ASSOCIATION

CHICAGO, Jan. 12.—The Intercollegiate Press, an organization to exchange news between college publications, opened business here today. The organization is composed of members of the Association of Western College Newspapers. Telegraph service, in addition to exchange by mail, will be used.

Paul Ray, editor of the University of Utah Chronicle, said last night that the Chronicle had never received any communications from such an organization and that the Chronicle was not a member. He also said he had never heard of such an organization as the Association of Western College Newspapers.

Acquitted of Murder.

COLUMBIA, S. C., Jan. 12.—Thomas H. Peoples, attorney general of South Carolina, was today acquitted of murder here. He was tried for the killing of Robert Marshall, negro chef at the Elks home. Witnesses testified that the killing was accidental.

BURLINGTON FOLDER GIVES CITY A BOOST

A new time table folder, just issued by the Burlington route, has been received by the Commercial club. Salt Lake is prominently mentioned on the advertising pages of the folder, as a result of the visit of T. T. Maxey, advertising agent of the C. & N. W. who was here with the railroad advertising agents last August.

In a letter accompanying the folder, Mr. Maxey expressed his intention of urging the winter tourist to California to stop off in Salt Lake, and called attention to the fact that every one of the Burlington western tourists passed

YOUNG INDIAN BOY MAY BE GIVEN PARDON

Daan Tasse, the young Indian boy, who has already served five years in the United States penitentiary at Leavenworth, Kan., for the murder of four members of an Indian family in southern Utah in 1909, is a model prisoner and will probably be paroled soon, according to Luther H. Smyth, deputy United States marshal, who returned yesterday from the federal prison, Marshall Smyth took Roland Lee, the former Salt Lake mail carrier, to Leavenworth and placed him in prison, where he will serve two years for the embezzlement of registered mail.

SPRY ENTERTAINED AT COMMERCIAL CLUB

A number of friends of Governor Spry entertained him at luncheon in the Commercial club yesterday noon in honor of his fiftieth birthday anniversary.

The luncheon was arranged by J. H. Manderfield. Those who attended were the governor, Mr. Manderfield, John K. Hardy, secretary to the governor; Colonel C. E. Loose of Provo, Glen Miller, member of the Utah exposition commission; Warden Arthur Pratt of the Utah state prison; Dr. D. H. Calder, superintendent of the state mental hospital; Provo; Attorney General A. R. Barnes and L. A. Merrill of the Salt Lake route.

John Schvin Buried.

The funeral of John Schvin was held at the family residence, 425 Fifth East street, Saturday afternoon. Bishop P. S. Spaulding officiated and Miss Nellie H. Brock gave two vocal selections. Interment was in Mount Olivet cemetery.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and tablets will be mailed, postage prepaid.

The “Golden Medical Discovery” makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skis affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1005 pages, clothbound.

Deaths.

January 11, 1914, Mary Riana, Holy Cross hospital, aged 78 years, emphysema.
January 2, 1914, Chester J. Hope, 572 Wall street, aged 23 years, valvular disease of the heart.

Mining Suit Being Heard.

A jury was secured and the plaintiff completed part of the testimony yesterday in the United States district court in the case of Lydia Ferguson against the Chief Consolidated Mining company. The plaintiff asks \$10,000 damages for the death of her son, who was killed while employed by the mining company. The case will be resumed today.

A Difference in Working Hours.

A man's working day is 8 hours. His body organs must work perfectly 24 hours to keep him fit for 8 hours' work. Weak, sore, inactive kidneys cannot do it. They must be sound and healthy active all the time. Foley Kidney Pills will make them so. You cannot take them into your system without good results following. WOMAN REFUSES OPERATION

Tells How She Was Saved
by Taking Lydia E. Pink-
ham's Vegetable
Compound.

Logansport, Ind.—“My baby was over a year old and I bloated till I was a burden to myself.

I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused.

I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine.

“I hope other suffering women will try your Compound. I will recommend it to all I know.”—Mrs. DANIEL D. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The

World's Remedy

You make no risky experiment when you use occasionally—whenever there is need—the most universally popular home remedy known—Beecham's Pills, which have stood the test of time with absolute success and their world-wide fame rests securely on proved merit.

relieve the numerous ailments caused by defective action of the stomach, liver, kidneys and bowels. Cleansing the system, they purify the blood and tone body, brain and nerves. Beecham's Pills act quickly; they are always safe and reliable, and you may depend upon it they
